DETAILED ACTION

Priority

This application is a DIV of 10/028,648 12/19/2001, is acknowledged.

Status of Claims

Claims 14-17 are currently pending in the application. Claims 1-13 have been canceled.

Receipt is acknowledged of amendment / response filed on August 10, 2005 and that has been entered.

Claims 14-17, in-part (Group II and III, wherein n represents 2 or 3) are withdrawn from further consideration pursuant to 37 C.F.R. 1.142 (b) as being drawn to a non-elected subject matter.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement (IDS), filed on 01/30/2004, which has been entered in the file.

Response to Election/Restriction

In response to the restriction requirement, Applicants have elected Group I, (which includes claims 14-17 drawn to a compound of formula (XI) and the elected species as set forth in Example I-1 (Response page 2), is acknowledged. Because Applicants did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election **without** traverse (MPEP § 818.03(a). Therefore, the requirement for restriction is still deemed proper.

Applicants preserve their right to file a divisional on the non-elected subject matter.

As set forth in the restriction requirement and an election of a single compound (or set of compounds), the invention will encompass all compounds that fall within the scope of the claim is as follows:

A compound having the formula as shown in claim 14 wherein:

n represents 1, and

Ar² is claimed except m of R⁵ cannot be 0 and R⁴ cannot be halogen.

As a result of the election and the corresponding scope of the compound identified, claims 14-17 in-part (Group II and III, wherein n represents 2 or 3), and the remaining subject matter of claims 14-17 are withdrawn from further consideration pursuant to 37 CFR 1.142 (b) as being drawn to non-elected inventions. The withdrawn subject matter of claims 14-17 in part is properly restricted as it differs materially in structure and in element from the elected subject matter supra so as to be patentably distinct there from.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-16 are rejected under 35 U.S.C. § 102(b) as being anticipated by Pirkle *et al* (1984). Applicant claims cyclic imines compounds, which are useful as pesticides. Pirkle *et al* also disclose the synthesis of several substituted chiral lactam compounds at least one of them anticipates the instantly claimed compound of the formula (XI), wherein n represents 1, Ar² represents a phenyl radical wherein R⁴ represents halogen (F), and m of R⁵ represents 0, which

reads on the instantly claimed invention [STN International, CAPLUS database, registry number 90432-58-9, a copy is provided with this Office action].

Objections

Claims 14-17 (in-part) are objected to for containing non-elected subject matter. The claims should be amended to exclude non-elected subject matter and within the scope of elected compound.
